

MRS. YAZVAC'S 6TH GRADE NEWSLETTER

Week of January 3 - 7, 2022

Welcome back!

Happy New Year, Sixth Graders!

We're back on Tuesday, January 4. I hope everyone had a great break. I also hope you are excited to be back at school! It's the end of this 9 week grading period. That means AR points are due, we will be having our big raffle, and we'll be looking at a new seating chart. I'll show you how we do that online - if the internet is working!!

You will not be going to Notre Dame on Wednesday, Thursday, or Friday this week because they are having exams. Instead, we will be spending the whole day at SMS, possibly in the STREAM room making something delicious. We will try one day, and if that goes well, we'll do another.

MATH: We will be reviewing everything we have learned in Chapter 1. (Factors, Multiples, Rates, Ratios, Unit Rates, and Ratio Tables) Hopefully, our internet will be working. I have some neat, online quizzes we can take together.

READING/ENGLISH/SPELLING: We will begin editing sentences together daily and writing more this 9 weeks. Have you begun reading "Holes?" We will be reading and discussing that and eating any "treats that come up in the story.

There are several. We will also be having a spelling test at the end of the week.

*Email me a complete **numbered** list of your Spelling Set #5 Spelling words to earn extra credit in the Reading/ELA subject of your choice.*

RELIGION: Covenant and Commitment

Love you like a Grandma, Mrs. Yazvac 

Upcoming Events: *new items highlighted in yellow!*
