

## *Mrs. Yazvac's 6TH GRADE NEWSLETTER*

**Week of March 22-26 , 2021**

Greetings 6th Graders!

Happy Spring!!! This is your last 5 day week before Easter Break!!! This school year is passing too, too quickly! It makes me sad!! Slow down, time! That was far too many exclamation points! There's another one!!

You are scheduled to tape your "Stations of the Cross" silhouettes presentation on Monday. Your AR points are due on Tuesday. I will finish 3rd 9 weeks report cards on Wednesday, and we will be celebrating Mass in church again this Friday.

We will begin our Holy Week Group Projects on Monday and be ready to present them the following Monday. Mrs. Folio may be visiting to see how we are able to work in groups while remaining safely "distanced." This will be a time for you to show her all of those neat, technology tools you use. She will be happy to see how much we have all learned about working well together in a COVID safe classroom.

Here is what I hope to do with you this week. However, I realize, as always, we will need to be flexible with our schedule because there are so many neat things happening right now!!

**Math:** If we can learn how to add, subtract, multiply, and divide fractions and mixed numbers this week, we can take those Volume 1 books home and I will distribute Volume 2! I promise Volume 2 will be so much easier for you because, believe it or not, we have already covered much of the material! I am sneaky that way!!

**English/Language Arts:** Spelling Test on Monday for the 6 words you have learned in Spelling Set #11. That means, I'm giving you 4 bonus points!

Yeehaaaa!

**Social Studies:** Chapter 26 Lesson 2 World War II Begins and Current Events

**Religion:** Religion class is our FOCUS this week. There may be days that you spend the majority of your time working on this class. You will be working in groups to cover 1 of 4 Holy Week Topics just in time for Easter Break!

Holy Week is the most important week in our Church year. You will be using everything you have learned with those new iPads to produce a presentation to teach all of us about this special time. This project will earn you English, Social Studies, Spelling, and Religious grades for the new 9 week grading period. Hmmm. . . I wonder if I can figure out a way to generate a math grade from this activity! I think I can!!

**SCIENCE - Sunrise and Sunset Data and finish Project Presentations.**

*\*\*\*\*\* Please be sure to bring enough water to school!! If that means one large bottle, or two, bring them!*

***Important Dates:***
