

## ***Mrs. Yazvac's 6TH GRADE NEWSLETTER***

**Week of May 3 - 7 , 2021**

This is a BIG week, 6th Grade!

On Monday, you will have your play pictures taken. Please wear your uniform with uniform dress shoes and dark dress socks.

***There are only 4 more full weeks of school!*** I don't even know why I am putting that little tidbit of information into this Newsletter. It just makes me sad.

We are testing this week. ***PLEASE GET YOUR REST EVERY EVENING!*** I have several fun activities planned for you to do after daily testing. It wouldn't be fair to make you do a bunch of work after you have worked so hard on the test, would it? I have 32+ years of neat little thinking games for you. Consider these a "cool down" after all that heavy lifting your brain does when you test!

Here is what I hope to cover this week:

**Math:** Everyday, I will be practicing skills with you that will help you do better on the Math test you will take this Thursday. Stay with me! I promise everything we do will help!!

**English/Language Arts:** Spelling Set #13 Test on Monday, add any new vocabulary words we find in the TFK magazine to Spelling Set #14, and read the new TFK magazine so you will score well on the end of the week test.

**Social Studies:** Because this is testing week, we will likely discuss current events we see on CNN10. If we are able to move ahead in our textbook, we will be reading about World War II in Europe.

**Religion:** We will be reading about "The Feeding of the 5,000." I have always thought, of all the stories in the Bible, this is one that I would have loved to have witnessed. Seeing baby Jesus in the manger would be my first choice, and this

would probably have been my 2nd choice. I would also like to share “The Infinity Solution” with you. It is a story that was given to me, as a gift, from a parent of a 6th grade math student I had years ago. It is a beautiful explanation of how we can never really understand how great our God truly is.

**SCIENCE - You may not have Science class this week due to testing. When you are with Mrs. Morris again, you will cover plant life cycles.**

***Important Dates: Highlighted items are new to your calendar this week***

**Monday, May 3** Play Pictures

**Tuesday, May 4** Day of Giving

**Wednesday, May 5** Forms and payment for Play Ads are due

**Tuesday to Thursday May 4, 5, and 6** MAP Testing in the mornings

**Friday, May 7** - Midterm
