

MRS. YAZVAC'S 6TH GRADE NEWSLETTER

Week of November 2 - 6, 2020

Hello 6th Graders!

This is a BIG week in the news! We will have much to discuss in Social Studies class! You have a tech day on Election Day (Tuesday).

MATH: Last week we worked on ratio tables. We will continue Chapter 1 Lesson 4 “Ratio Tables.” We will use real world data from the election. Did you see any ratios in the news reporting?

LANGUAGE ARTS: Please earn the last of those 15 required AR points (if you have not already earned them!) We will be reading the current Time for Kids magazine. Please continue practicing spelling/vocabulary words using Quizlet.

SOCIAL STUDIES: We will be discussing the Presidential Election in this class and in Math class because this only happens every 4 years. (And then we will get back to learning about World War I in Chapter 23 Lesson 3.)

RELIGION: We will continue working on your All Saints’ Day project. We will learn that God is always faithful to His promises as we continue reading about God’s covenant with Abraham, Isaac and Jacob and the new covenant in Christ.

SCIENCE with Mrs. Morris - Properties of Elements

EXTRA CREDIT OPPORTUNITY: 30 minutes or more math practice on Sumdog between 2:30 pm on Friday October 30 and 8 pm on Sunday November 1 will earn you extra credit points in the subject of your choice.
